

WILL ASK WILSON'S VIEW ON VOTE HERE

Washington Committee of Forty
Will Have Special Delegation
Visit White House.

Before any plans for popular government in the District will be decided by the Committee of Forty, President Wilson, who is deeply interested in making Washington a model municipality, will be asked for his views.

This decision was reached at the meeting of the organization in the Public Library Thursday night, when two resolutions urging Congress to name an impartial commission to formulate a democratic plan of government for the District, were tabled until the conference with the President. Dr. A. J. McKelvey, president of the Committee of Forty, will appoint the men to call on the President today.

A resolution calling on the House District Committee to grant public hearings on the Cooper bill, which provides for the appointment of a commission to investigate the fiscal relations between the Federal and District governments, was passed, and a resolution congratulating William F. Gude, a member of the Committee of Forty, on his election as president of the Chamber of Commerce was adopted.

The recommendations made by Miss Florence Eberhardt, chairman of the subcommittee on qualifications of voters, provided for suffrage in the District for all adults, male and female, able to read and write.

W. O. Owen, chairman of the committee on drafting a charter for the District, reported a tentative plan, providing for the initiative, referendum and recall, a city manager, the short ballot and various civic bureaus.

Urge Purchase of Chesapeake Canal

The immediate purchase of the Chesapeake and Delaware Canal as a part of an intercoastal waterway from Florida was urged upon the House committee on Rivers and Harbors Thursday by large delegations from Maryland, Pennsylvania, New Jersey, Ohio, Charles R. Miller of Delaware, Mayor James H. Preston of Baltimore, Mayor Frederick Donnelly of Trenton, and Congressman J. Hampton Moore of Maryland, who addressed the various State delegations.

Major Preston, while advocating the Chesapeake and Delaware Canal purchase, seized an opportunity to put in a boost for Baltimore harbor, and asked the committee to report the Lincoln plan for a \$20,000,000 improvement of the harbor.

Governor Miller said Delaware was squarely behind the intercoastal waterway movement.

Sen. Felix A. Agnew, of Baltimore, said he thought the original purchase price of the canal would be within \$2,500,000.

"If we had had that canal the British would never have taken Washington," said General Agnew, during an enthusiastic description of the canal.

"Washington wouldn't have been bottled up," he said.

Donnelly, who was quizzed regarding the public benefit which might accrue through an intercoastal waterway, of which the canal would be a part.

Congressman Moore introduced the speakers and explained the plan of the Atlantic Deepwaterways Association to buy the canal and spend millions for deepening and improving it.

English Heirlooms Returned By Morgan

The State of Virginia's hopes that J. P. Morgan will return to the archives of Fairfax county the stolen Martha Washington will before civil suit is instituted against him were enhanced today by the news that the financier had voluntarily returned to an English woman certain heirlooms purchased by his father.

It is reported that Mr. Morgan has returned to the Hon. Harrie Phillips, queen Victoria's principal lady in waiting, now in her seventy-third year, a number of jewels that were given her by "Victoria," but which she had been obliged to part with some time ago in order to pay an inheritance tax. Accompanying the jewels, the report says, was a letter to Miss Phillips from Mr. Morgan explaining that he had found them in his father's collection, and wished to return them, as he thought it a pity that they should go out of her family. Miss Phillips never met either Mr. Morgan or his father.

Bedbugs Blamed For Cancer Spread

"Bedbugs are the most probable cause of cancer,"

That is the statement Dr. John R. Littlefield, formerly of Washington and now practicing medicine in Cumberland, Md., made today after a long study of the question. Summing up his reasons, Dr. Littlefield said:

"First, our present theories regarding the origin of cancer are untenable; second, until proven to the contrary, the protozoan organisms must be regarded as the cause of this growth; third, the fact that the bed bug has been the constant companion of civilized man, following him wherever he has gone, and that cancer has always made its appearance among savage people when they came in contact with civilization."

Automobile Dealers Will Dine Tonight

A dinner, preceded by a business meeting, of the Washington Automobile Dealers' Association, will be held tonight at the Commercial Club.

This will be the last meeting of the association before the automobile show opens next week.

Dr. De Witt Quits Post At Government Hospital

Dr. Grace De Witt, who had been junior assistant physician at the Government Hospital for the Insane since June, 1911, left Washington Thursday for Philadelphia, after severing her connection with the Government institution.

Dr. De Witt gave no reason for her resignation. It is rumored at the hospital, however, that she has returned to Philadelphia to be married.

Dr. De Witt came to Washington after passing a competitive civil service examination. She came from the Woman's Hospital in Philadelphia.

Stop Stomach Worries Now

And Use Stuart's Dyspepsia Tablets
So That You Can Digest Each
Meal Quickly and At the Same
Time Renew Your Digestive
Strength.

Learn once again how to smile and laugh, and stop this stomach worry. This condition arises from faulty digestion and cannot be remedied unless you use common sense and assist Nature a little.

"I Am a New Man Since Stuart's Dyspepsia Tablets Gave Me a New Stomach."

If the stomach is overworked, its muscles become tired and gradually grow weaker and weaker, until they are unable to take care of the food properly. The glands fail to provide the juices necessary to digest the food; Gas forms and causes all sorts of pain, misery and wretchedness, as well as extreme danger to the heart.

It is then that the stomach calls for help. Ordinary medicines are impossible. They not only fail to help the stomach but injure the entire system. Medical men have studied the stomach and have discovered that the digestive juices consist largely of pepsin and hydrochloric acid. What, then, would be more natural than to supply these properties artificially when the stomach is unable to produce them?

That is the object of Stuart's Dyspepsia Tablets. These powerful little pills relieve the stomach of its burden, thereby giving it an opportunity to regain its normal strength. They tone up, strengthen and revitalize the secretory glands, mucous membranes, absorbing glands and muscular walls. They restore to the stomach its lost powers of digestion so that it can again do its work without assistance. They contain, in a concentrated form, every element necessary to digest all sorts of food, whether acid or alkaline.

If you experience an oppressive feeling just inside the lower end of your breast bone and extending upward toward your heart, do not hesitate an instant. Get Stuart's Dyspepsia Tablets from the nearest druggist at once and take one. In a few minutes the pain will leave you and you will feel better. Take a tablet after each meal for several days and your stomach will once more perform its duties. All druggists sell them at five a box—Advt.

Tomorrow's Special

Opera length beaded necklaces at 25c—a special price for one day only—is to attract attention to Headquarters for the fad of the moment.

Necklaces are here of beads as small as tiny seeds and as big as birds' eggs. Of pearls at 25c to \$15.00; of real coral at \$3.95 to \$10.00; of amber and jewel-like beads at only 50c; of black beads at 25c to \$5.00. Grand exposition and sale on first floor, near G street door.

Your Gloves of 1914

The Greater Palais Royal hopes to win vast numbers to its army of regular patrons—during 1914. To earn is to win. Your patronage will be earned with Kid Gloves of better quality or at less price than during 1913. The new tariff lowers the cost of gloves—according to length—making short gloves less in price or better in quality than last year. Quality is to be first considered here—all gloves will be fitted at our risk.

\$1 Gloves 89c
The \$1.00 Kid Gloves of 1913 are reduced to 89c—because the dollar gloves of 1914 are so much superior.

\$1.25 Gloves \$1
